

Sport Premium Grant

Background

The Government is providing funding to provide new, substantial primary school sport funding (the funding may continue after this but this has not been confirmed by the DfE). This funding is being jointly provided by the Departments for Education, Health and Culture, Media and Sport, and will see money going directly to primary school head teachers to spend on improving the quality of sport and PE for all their children / develop healthy lifestyles.

The purpose of the funding is that schools will have to spend the sport funding in improving their provision of PE and sport, but they will have the freedom to choose how they do this.

Allocation for 2016/17

Funding for schools will be calculated by the number of primary aged pupils (between the ages of 5 and 11) as at the annual census.

Based on a full year all schools with 17 or more primary aged pupils will receive a lump sum of £8,000 plus a premium of £5 per pupil. Smaller schools will receive £500 per pupil.

Allocation for 2017/18

Funding for schools will be calculated by the number of primary aged pupils (between the ages of 5 and 11) as at the annual census.

Based on a full year all schools with 17 or more primary aged pupils will receive a lump sum of £16,000 plus a premium of £10 per pupil. Smaller schools will receive £1,000 per pupil.

Accountability

Schools will be held to account for how they spend the sport funding. Ofsted has strengthened its coverage of sport and PE within the Inspectors' Handbook and supporting guidance, so that schools and inspectors know how sport and PE will be assessed in future as part of the school's overall provision offered. Schools must publish, on their website, information about their use of the PE and Sport Grant allocation by 4th April 2018.

Schools should publish the amount of grant received; how it has been spent (or will be spent) and what impact the school has seen on pupils' PE and sport participation and attainment as a result, to help to ensure that all pupils develop healthy lifestyles.

Best Practice

Schools will be able to draw on the information on effective practice taken from case studies provided by the very best schools. One year on, Ofsted will carry out a survey on the first year's expenditure and its impact.

Academic year 2016/17

Spending:

The school received a grant of £9770.00 for primary school sports in the academic year 2016-17. This money was used in a number of different ways to support the provision of improved quality of sports and PE for all pupils:

How we spent the funding:

Activities / initiatives selected	Cost (£)
Swimming sessions	£2628.00
General sport equipment	£235.30
Competitions and events	£75.00
Health and Well being clubs	£6831.70
Total	£9770.00

Impact of primary school sports funding 2016-17

Ofsted has strengthened its coverage of sport and PE within the Inspectors' Handbook and supporting guidance, so that schools and inspectors know how sport and PE will be assessed in future as part of the school's overall provision offered.

In the academic year 2016/17 the average progress of our children in sport/PE was improved compared to the previous year. This was due to the provision of general fitness coaching/activities, before school activities (Activate, breakfast club sports), playtime and lunchtime activities (for all ages) and sports clubs after school. From September 2016

all pupils premium pupils were able to access the coaching for free. As a result of the coaching and increased fitness levels pupils have become healthier, lead a more active lifestyle, engage on a wider range of activities and show a greater level of enthusiasm for sport, PE and keeping healthy.

A 'Health and fitness' club was run in school time for pupils identified as needing extra support with healthy eating and exercise. The aims of these sessions were to improve the general physical and mental well being of pupils through the benefits of exercise and to develop an awareness of healthy eating and leading a balanced lifestyle. The impact of these sessions was recorded weight loss, reduced measurements and a better awareness of healthy foods and a balanced lifestyle.
