

The report also recognises the key role the governors have played and within that the importance of the way the governing body has been strengthened in recent years.

The report makes a limited number of recommendations for improvement and I am sure you will take these forward with the aim of being judged outstanding at the next inspection.

This is a great report and well recognises the progress you and the staff team and governors have made.

Best wishes.

Yours sincerely

Colin Green  
Director of Children, Learning and Young People
