You can complete these tasks as an extra if you want to. Send pictures of your work to your class teacher on showbie!

Topic	<p><u>Science</u> In science this term we are learning about forces and friction. Friction is a pull and a push force working against each other. If you have a toy car, find out which surface you have at home creates the most friction. If you don't have a toy car use a tinned can and roll it on the different surfaces to find out what surface creates the most friction.</p>	<p><u>Computing</u> In computing we are creating blogs. A blog is an online diary that is located on the internet. People create blogs about many different topics. Sign up for your own blog at www.blogger.com then create your own blog about an interest of yours. Example: Ryan's Football Blog</p>	<p><u>Geography</u> So far this term in Geography we have become excellent researches about the different human and physical features in Birmingham and Rio De Janerio. Birmingham has just hosted the Common Wealth Games and King Charles VIII would like a building to commemorate the event. It is your job, a famous architect, to use your skills and talent to design a building that can showcase this extraordinary event.</p>
