Dear Parents and Carers,

We will be trialling a **mathematics homework booklet with both Year 3 classes over the coming weeks**. If this trial proves successful, we hope to introduce the booklet across the whole school for pupils in Years 1 to 6.

The homework booklet will be **given out each Friday and should be completed and returned to school by the following Wednesday**. This routine will allow children enough time to practise their learning while also enabling teachers to review and support their progress regularly.

Homework plays an important role in reinforcing what children learn in the classroom. It provides an opportunity for pupils to practise key skills, build confidence in their understanding, and develop good learning habits such as responsibility and independence. Regular practice at home can greatly support children in consolidating their mathematical knowledge.

The booklet will generally reflect what the children are learning in class. Activities will link to the topics and skills being taught week by week and term by term, allowing pupils to revisit and strengthen their understanding of current learning.

We appreciate your support in encouraging your child to complete their homework and in taking an interest in the work they bring home.
Thank you for your continued support.

Yours sincerely,

Miss Shelina [DHT & Mathematics Lead]
