## From the Head Teacher

Dear Parents/Carers,

What a great week we have had! A group of children went on a visit to LEAR Corporation to experience the fantastic work they do in the automotive industry. Thank you to LEAR corporation for all of the things they do to support us as a school—we are so very grateful to have you in our school community.

We are so proud of all of our families for supporting Comic Relief—we all dressed in red and wore our Red noses during the day. All of the money we raise will go towards helping those less fortunate than ourselves both in the UK and overseas.

Pupils in years 2 and 6 are beginning to build up to their formal assessments in a few months time. They are already working super hard and are really excited about the progress they are making—we are extremely proud of them and cannot wait to celebrate together at the end of the year!

Please make time to talk to your children about the successes they achieve every day, no matter how small and celebrate together what makes them and us proud!

Mrs. Sofina Islam OBE,

### British Science Week goes with a bang!

British Science Week is an annual celebration of all things science. This year the theme was **GROWTH**. Here at School, we have taken part in a variety of tasks and challenges during the week and we also enjoyed a "Silly Science" show.

Some of the activities Children have enjoyed are:

- Do all our body parts grow as we get older?
- Stretchy slime experiment
- Take it home: Outdoor gym.
- First aid
- Surviving on Mars

The pupils have enjoyed the experience and Have acquired new knowledge.

Year 1: Abdi "We made animals that could survive on Mars"

Year 3: Hiba "We did an experiment to make onions grow. They are still growing because of the water"

Year 4: Easa "It was exciting! We made slime by creating a chemical reaction, it made bubbles which resulted in a permanent change. The bubbles made the slime grow."
