

# Stanton Bridge Primary School Newsletter

Volume.3 Issue 1

## Year 3 Newsletter

*Greetings, this letter is to inform you about the Year 3's education over the Autumn term.*

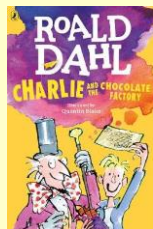

*The Year 3 team consists of our teachers: Mrs Sangha, Mrs Begum, Mrs Griffin and Miss Pahl.*

### Home Learning

As part of home learning in year 3, pupils are expected to learn their spellings in preparation for the tests they have on Fridays. Pupils are also expected to login into Times Tables Rockstars to develop their multiplication fluency skills.

### English

In English, we have been looking at the story of Charlie and The Chocolate Factory. We wrote a setting description, as well as a narrative about the story. The children enjoyed watching and reading parts of the story, which they then implemented to their work.

### Mathematics

In Mathematics, we have been looking at number and place value, addition and subtraction and multiplication and division. The children have enjoyed using concrete manipulatives to develop deep understanding of these mathematical concepts.

### Science

In science, we have been learning about Forces and Magnets. This included carrying out numerous investigations that entailed planning, conducting and concluding. The children really enjoyed finding out answers themselves through hands-on learning!

### P.E

In P.E, we have been learning skills within Basketball. The children have enjoyed learning the skills of dribbling, passing and generally using space effectively with Mr. Ali.

### R.E

During R.E, we learnt about the religion of Christianity. The children were very intrigued by this topic and gave well thought out opinions during discussions.

### Geography

In Geography we have been comparing the human and physical features of Rio de Janeiro and Birmingham. The children went on a globetrot around Birmingham City Centre to identify the various features of the city.

### Computing

This half term we have been looking at surveys. Initially this included evaluating survey features. This led onto children creating and completing surveys of their own.

### French

This half term in French, the children have been looking at how to introduce themselves, ask simple questions and were able to produce a short recording of a conversation with a peer.
