CLOSURE OF CRABMILL LANE GATE

Dear Parents and Carers,

I am writing to all families that use the Crabmill Lane entrance to school. As you will have noticed scaffolding has been erected in the schools entrance, causing an obstruction.

This scaffolding was put up on school land without permission from either us or by licence from the Local Authority. It appears that its purpose is for roofing work to take place on 60 Crabmill Lane.

Once work commences, this will present a health and safety hazard to all that would use that gateway into school. Therefore, we have contacted the Health and Safety Executive who recommend that school, based on our assessments, close this gateway until the risk of harm has passed.

Therefore, this is advance notice that the gate will be closed as soon as work commences. This will happen at very short notice. I know this will put extra pressure on families as access to school will only be via the Oliver Street entrance. Please remember that this entrance gets very congested and we ask that if you have to travel by car you park away from school and walk the rest of the way.

Yours sincerely

Sofina Islam OBE
